2. CERAMICS
Kevin Black

Kevin's work is best described as that of a Studio Potter. Mostly wheel-thrown vessels, based on classical shapes but with design aspects and speciality glazes chosen to lift the piece beyond the purely functional.

3. CERAMICS
Martina Black

Martina is a Ceramic Artist. Brightly coloured, free-flowing, and often whimsical, Martina's pieces offer a unique perspective on a world inhabited by people and creatures, both real and fantasy. Occasionally a quirky but functional mug or bowl might also take her fancy.
